

The numbers presented in the below charts represent information supplied to CJJP from the eleven juvenile detention facilities in the State of Iowa. The eleven facilities report to CJJP on each youth that they detain on a quarterly basis. These numbers are a sum of all those reports. It should be noted that many youth spend time detained at different times of the year and are counted separately each time that they are detained. Additionally some youth are moved from one facility directly to another facility and each facility reports detaining these youth, and thus these youth are counted more than once in the above numbers.

## US Census Bureau Estimated Juvenile Population of Iowa by Gender

	SFY1993	SFY1994	SFY1995	SFY1996	SFY1997	SFY1998	SFY1999	SFY2000
